Dear Sir/Madam

I am writing to express my strong interest in the laravel development position. As a fourth-year Information Technology student at Build Bright University, I am eager to contribute my knowledge and enthusiasm to support your organization and gain valuable professional experience.

Through my academic journey, I have built solid technical skills in programming (C, C#, C++, Python, PHP, Java, Flutter), web development (HTML, CSS, JavaScript, Vue, React, Laravel), database management (SQL, MySQL, SQL Server, Oracle), and IT support (hardware/software troubleshooting, network configuration). Additionally, I am proficient with Microsoft Office, Adobe Photoshop, CapCut, and Canva—skills that allow me to support both technical and creative tasks effectively.

My hands-on experience includes developing dynamic websites using CMS platforms such as WordPress and CMS Made Simple. I have successfully created live websites, including a project for ESTC, which enhanced my ability to deliver user-friendly, well-structured, and responsive web solutions.

Beyond technical skills, I bring strong communication, teamwork, and problem-solving abilities. At PEPY Learning Center, I completed a one-year program focused on General English, ICT, and Youth Empowerment, where I enhanced my soft skills through public speaking, teamwork, and leadership training. These experiences have made me adaptable, a fast learner, and able to work well both independently and in a team.

What excites me about interning at Stay Nature Hotels is the opportunity to contribute to an eco-friendly hospitality group while further developing my IT expertise in a real-world professional setting. I am especially motivated by your commitment to growth, inclusivity, and community, which align closely with my values.

Thank you for considering my application. I would be delighted to discuss how my skills and passion for IT can support your team. I am available for an interview at your convenience and can be reached at 088 982 0067 or [lavtit.nssp2021@gmail.com](mailto:lavtit.nssp2021@gmail.com)

I am looking forward to hearing from you very soon.

Yours Sincerely,

**LAV TIT**
